

FM 90.1 KLRD keeps me informed of local, regional , and world events and news that are of particular interest to me and my family. We are a christian- based family and this station serves our interest and the interest of others including non-christians by distributing information regarding events, people, meetings, places we can go to either further our faith or investigate for those who are interested. The music they play is extremely enjoyable for anyone - it is modern enough for my teenagers and carries a very positive message. This station is a valuable part of our community- thank you.
